- Postman · Agile/Scrum

EDUCATION

Certificate in Web & App Development

Sir Syed University of Engineering & Technology

Bachelor of Commerce (B.Com)

University of Karachi

LANGUAGES

English — Professional
Urdu — Native

PROFESSIONAL SUMMARY

Senior Software Developer with 5+ years of experience designing and delivering scalable full-stack applications, enterprise platforms, and AI-powered systems. Expertise in MERN stack, Python, FastAPI, and modern cloud architectures. Specialized in LLM integrations, Retrieval-Augmented Generation (RAG) pipelines, and AI/ML solutions using OpenAI, LangChain, and vector databases. Proven track record of optimizing system performance, reducing production issues, and leading end-to-end delivery of high-impact features in Agile environments.

WORK EXPERIENCE

Senior Software Developer

2023 – 2026

QBS.CO · Karachi

- Built and optimized full-stack MERN applications with secure, scalable REST APIs and optimized MongoDB schemas.
- Developed reusable React.js components and led debugging/integration testing within Agile/Scrum teams.
- Reduced API response time by 90% via MongoDB query optimization and Redis caching.
- Improved application performance/load speed by 80% through code-splitting and React optimization.
- Cut production bugs by 95% by introducing structured testing and code-review practices.
- Delivered 100%+ features/modules ahead of sprint deadlines, boosting team delivery speed.

Frontend Developer

2019 – 2022

The Bitwits · Karachi

- Built enterprise dashboards with React, Angular, Tailwind CSS and Chart.js, including role-based access control modules.
